

Supervision sessions

How to book supervision

- **Check the time supervision sessions:** In the Syllabus page, section "consultation sessions" the supervision times are mentioned. Note that consultation is remotely given. No time/place is mentioned in TimeEdit.
- **Follow the instructions on the Syllabus page:** For this year (2024), there is a chart mentioning which TAs will give consultation for each module. Each TA has also shared a zoom link which is used for the entire course. Choose a relevant TA from the chart and connect to the zoom link during the given consultation time. Wait to be admitted and the TA will assist you as soon as they can. This can take some time.
